

## EAR CLEANER RECIPE:

ONE 16 OZ. BOTTLE OF 91% ISOPROPYL  
ALCOHOL  
2 TEASPOONS OF BORIC ACID POWDER.

ADD POWDER TO THE BOTTLE OF ALCOHOL  
AND SHAKE IT UP

AFTER BATHS, SWIMMING OR IF THE DOG IS  
HAVING AN EAR INFECTION OR IRRITATION  
PUT A HALF CAPFUL TO A CAPFUL OF  
MIXTURE INTO THE DOGS EAR AND  
MASSAGE THE SIDES OF THE EAR TO GET IT  
DOWN INTO THE CANAL.

THE DOG WILL PROBABLY SHAKE ITS HEAD  
A LITTLE, WHICH IS NORMAL.

THIS DRIES UP THE EARS AND ALSO KILLS  
ANY “CRITTERS” THAT HAVE GOTTEN INTO  
THE EAR.
